Cindy Byrd, CPA, Republican, is Oklahoma’s thirteenth State Auditor and Inspector, the first woman elected to this statewide-elected office, and the first candidate to top the 800,000-vote milestone in an election for state office in Oklahoma history. Byrd and her husband, Steve Byrd, live in Coalgate, located in Coal County, Oklahoma. She earned a Bachelor of Science degree in Accounting from East Central University, became a Certified Public Accountant in 2003 and held an appraiser license from 2006 to 2011. Beginning in 2013, Byrd served as Deputy State Auditor and Inspector for Local Government Services until assuming her role as State Auditor on January 14, 2019.

The State Auditor and Inspector is to “independently serve the citizens of Oklahoma by promoting accountability and fiscal integrity in state and local government.” Byrd has been at the forefront of this mission since joining the State Auditor’s Office in 1997. Serving at every level in the agency, she brings a new depth of understanding to the office which includes an extensive knowledge of government accounting and auditing standards and the statutes related to the financial activities of Oklahoma’s state and local governments. To improve the oversight of public funds for a variety of government entities, Byrd has designed training classes to eliminate potential waste, fraud, and abuse, and has integrated data analytics software into the auditing process to identify anomalies in financial reporting.

Various statutes govern the audit responsibilities of the State Auditor and Inspector. As the chief auditor for the State, the State Auditor and Inspector audits the State of Oklahoma Comprehensive Annual Financial Report (CAFR), which includes the financial operations of all state agencies, boards, and commissions, and the annual Single Audit, a compliance audit of expenditures of federal funds. The State Auditor also performs financial audits of various state agencies. Auditor Byrd continues to oversee the County Audit Division, a position she has held since 2011, which produces a majority of all audits published annually. The County Audit Division conducts financial, operational, and performance audits of all seventy-seven counties as well as sixty-five Emergency Medical Services districts, twenty-seven District Attorney districts, and may conduct investigative audits of these entities by request.

Performance audits are performed by request of the governor, the chief executive officer of a government entity, or by joint/concurrent resolution of the state legislature. Special investigative audits may be requested by the governor, House and Senate leadership, the attorney general, district attorneys, an entity’s governing board, and/or upon petition by citizens. The Specialized Audit Division audits federal oil and gas royalties, horse racing and gaming, and public employee insurance eligibility. The Information Services Division conducts IT audits of some state and county governments.

The State Auditor or her designee serves on numerous boards and commissions, these include: The Oklahoma State Pension Commission; State Board of Equalization, Subcommittee Chair; Commissioners of the Land Office, Investment Committee; Board of Investors for the Tobacco Settlement Endowment Trust Fund; Archives and Records Commission; Board of Directors for the College Savings Plan; Oklahoma Society of Certified Accountants; American Board of Forensic Accountants; and the National Association of State Auditors, Comptrollers, and Treasurers.

Bob Anthony, Republican, is currently the longest serving utility commissioner in the United States and has served six times as chairman of the Oklahoma Corporation Commission. He is a member of the board of directors for the National Association of Regulatory Utility Commissioners and past chairman of the National Regulatory Research Institute. The United States Secretary of Energy has appointed Anthony to a fifth term on the National Petroleum Council. He currently serves on the Public Interest Advisory Committee of the Gas Technology Institute. He is past president of the Mid-America Regulatory Conference, a member and past president of the Economic Club of Oklahoma, and for eight years served as a delegate to the worldwide General Conference of the United Methodist Church.

Anthony holds a BS from the Wharton School of Finance at the University of Pennsylvania; a Master of Science from the London School of Economics; a Master of Arts from Yale University; and a Master of Public Administration from Harvard University. He rose to the rank of captain in the U.S. Army Reserve. In 1972 he served as staff economist for the United States House of Representatives Interior and Insular Affairs Committee (now called the Natural Resources Committee). From 1979 to 1980 Anthony served on the Oklahoma City Council as Ward 2 Councilman and then as vice mayor. In 1980, at age thirty-two, Anthony became president of C.R. Anthony Company retail stores, then the largest privately-owned firm headquartered in Oklahoma. During his seven-year term as president, annual sales for the retail chain increased from $256 to $411 million, with payroll, employment, and dollar profits reaching all-time record levels. In 1988 he was chairman of the Trust Committee of Oklahoma’s largest bank trust department.

In 1995 the Federal Bureau of Investigation honored Anthony with its highest award given to a citizen who “at great personal sacrifice, has unselfishly served his community and the nation.” Among other recognitions, the American Association of Retired Persons of Oklahoma presented Anthony with an award “in appreciation of his tireless efforts on behalf of Oklahoma consumers.”

Anthony has served as a statewide elected official longer than any current Oklahoma office holder, winning his sixth consecutive six-year term on the Oklahoma Corporation Commission in 2018, winning all seventy-seven counties. He initially ran for the Corporation Commission in 1988, becoming the first Republican elected to that body in sixty years and receiving more votes than any Republican since statehood. In 1994 Anthony became the first Republican incumbent in Oklahoma history to win statewide reelection to a state office. In 2000 he was reelected, receiving more votes at that time than any candidate for state office in Oklahoma history.

All four of Anthony’s grandparents came to Oklahoma before statehood. His father was born in Cleveland, Oklahoma, and his mother grew up in Enid, Oklahoma. He and his wife, Nancy, were married in 1975. They are the parents of four daughters and have five grandchildren.

Todd Hiett, Republican, is serving as the current chair of the Corporation Commission. Hiett, a graduate of Oklahoma State University, was elected to the Oklahoma House of Representatives in 1994, at the age of twenty-seven. Hiett quickly ascended into leadership and was selected by his colleagues to serve as House minority leader in November 2002. Two years later, he led the state House Republicans to their first majority in eight decades and their largest victory in nearly a half-century. Marking a historic shift in power at the capitol, Hiett was chosen the first Republican Speaker
of the House in more than eight decades.

During his first year as Speaker, Hiett oversaw a smooth transition as House Republicans ascended to power with a bold agenda. Hiett pushed through the largest tax cut in state history, the most significant right-to-life legislation in thirty years, an innovative highway-funding bill, and significant education reforms, collectively known as the ACE Initiative, which raised the bar for curriculum standards and graduation requirements in Oklahoma.

After a successful twelve years in the Oklahoma Legislature, Speaker Hiett has worked for the past eight years with various entities in manufacturing, navigation, and energy industries. In this role, he has enjoyed the opportunity to work with many pro-growth companies such as Webco Industries and Callidus Technologies to strengthen and expand their ability to provide jobs.

Hiett and his wife, Bridget, have three children, Jimmy, John, and Hillary. The Hiett family lives on a ranch, two miles south of Kellyville, that they continue to operate. Bridget teaches fourth grade at Kellyville Elementary; son Jimmy graduated from Oklahoma State University; son John is attending medical school at Texas A&M; and daughter Hillary is a sophomore at Oklahoma State University. The Hietts attend First Baptist Church of Kellyville.

Dana L. Murphy, Republican, is a fifth generation Oklahoman deeply committed to her home state. After attending Central State University in Edmond, Oklahoma, where she received the Best All-Around Freshman Athlete Award, she attended Oklahoma State University. Unlike most states, Oklahoma has two courts of last resort. The Oklahoma Supreme Court determines all issues of a civil nature, and the Oklahoma Court of Criminal Appeals decides all criminal matters. Members of these courts, and of the Court of Civil Appeals, are appointed by the governor from a list of three names submitted by the Oklahoma Judicial Nominating Commission. The Oklahoma Supreme Court has nine justices; the Court of Criminal Appeals, five judges; and the Court of Civil Appeals, twelve judges.

The Court of Civil Appeals is responsible for the majority of appellate decisions. These opinions may be released for publication by either the Oklahoma Supreme Court or the Court of Civil Appeals. When the opinions are released by the Oklahoma Supreme Court, they have precedential value. The Court of Civil Appeals is made up of four divisions, each composed of three judges. Two divisions of the Court of Civil Appeals are located in Oklahoma City, and two are in Tulsa.

Deciding cases is only one of the Oklahoma Supreme Court’s functions. The court is also responsible for administering the state’s entire judicial system. The court establishes rules of operation for all other courts in the state. The court formulates rules for practice of law, which govern the conduct of all attorneys, and it administers discipline in appropriate cases.

Administrative services for the court system are provided by the Administrative Office of the Courts. For more information please contact the Administrative Office of the Courts at 405/556–9300.

History and Function—The Oklahoma Court of Civil Appeals is the intermediate Court of Appeals for all civil cases filed in Oklahoma. Created by the Oklahoma Legislature in 1968, six new positions were added to the original six judges of the Oklahoma Court of Civil Appeals in 1982. With terms of six years each, judges are elected on a non-partisan retention ballot from each of the six congressional districts as they existed before the 2002 election. If a majority of those who cast ballots vote in favor of retention, the judge will serve another term. If a vacancy occurs on the Court of Civil Appeals prior to the expiration of a term, the governor appoints a successor, from three names submitted by the Judicial Nominating Commission. The clerk of the Oklahoma Supreme Court serves as clerk of the Court of Civil Appeals. The Court of Civil Appeals consists of twelve judges, six that sit in Oklahoma City, and six that sit in Tulsa. Those judges from Congressional Districts 1, 2, and 3 comprise Divisions 2 and 4 in Tulsa. Those judges from Congressional Districts 4, 5, and 6, comprise Divisions 1 and 3 in Oklahoma City. These divisions are three-judge panels, the membership of which changes each year. The chief judge and vice-chief judge are selected and rotate each year between Oklahoma City and Tulsa.

History and Function  The McCarty Center was founded in 1946 by the 40 et 8 of Oklahoma, an honor society within the American Legion. A member of the 40 et 8 had a grandson who had cerebral palsy. The grandfather could not find any entity in the state that could help his grandson to learn to walk or talk. The 40 et 8 took it upon themselves to create a place where children with cerebral palsy could get the physical, occupational, and speech and language therapy they needed to
reach their highest level of independence and function. Today, the McCarty Center has treated more than one hundred different diagnoses in the developmental disability category. In 1948 the McCarty Center became a state agency.

Mission Statement To acquire, archive, process, and disseminate, in the most cost-effective way possible, all climate and weather information of value to policy and decision makers in the state.

Administration Kevin Kloesel, Ph.D., Director; Gary McManus, Ph.D., State Climatologist

History and Function The Oklahoma Climatological Survey (OCS) is a state agency mandated to acquire, archive, process, and disseminate, in the most cost-effective way possible, all climate and weather information of value to policy and decision makers in the state. OCS was first established by the University of Oklahoma in 1980 to serve as a supporting structure for the state climatologist. The state legislature in 1982 formalized the OCS’s existence with enabling legislation. Since 1991 the OCS has been the operational home of the Oklahoma Mesonet (www.mesonet.org), the state’s weather network, designed and implemented by the University of Oklahoma (OU) and Oklahoma State University (OSU). The addition of the Mesonet expanded OCS’s role from retrospective climate studies to supporting real-time weather-impacted decisions. OCS initiated outreach programs for Oklahoma’s K–12 teachers and public safety agencies in 1992 and 1996, respectively, and provides additional decision-support tools in support of rural electric cooperatives and agriculture.

OCS provides tailored information to address particular needs for Oklahoma’s citizens and state and local decision makers. OCS scientists utilize all available weather and climate information, both historical and real-time, to assist citizens and state decision makers with understanding current weather conditions and historical circumstances of weather events and climate variability. By integrating weather and climate information from multiple data sources, OCS relieves other state agencies of the necessity to have expertise on staff to assemble and evaluate the multiple information sources. OCS climatologists provide similar expert assessments for citizens of Oklahoma.

OCS is located at OU in Norman, and is under the governance of the OU Board of Regents. OCS is home to the state climatologist. The director of OCS is appointed by the OU Board of Regents, based upon recommendations by a search committee conducted within the OU College of Atmospheric and Geographic Sciences and School of Meteorology. The director also serves as co-chair of the Mesonet Steering Committee.

History and Function  Authorized under the Conservation District Act in 1937 when Oklahoma landowners faced the serious problem of erosion from wind and water, the early-day work for the Conservation Commission was to eradicate these problems. Today the Conservation Commission, the federal USDA Natural Resources Conservation Service, and a network of eighty-four local conservation districts cooperatively carry out conservation Oklahoma. In addition to providing direct technical assistance to local land users for soil and water conservation, the commission and conservation districts are responsible for upstream flood control protection, a state-funded conservation cost-share program, reclamation of abandoned mine land, and nonpoint source water quality monitoring, planning, and management, in addition to a variety of educational and informational activities.

Abandoned Mine Land Reclamation Program—The Oklahoma Conservation Commission is the state agency designated to administer the federally-funded Abandoned Mine Land (AML) Reclamation Program. The mission of the program is to reclaim abandoned mined land in Oklahoma. The AML Program, through the Office of Management and Enterprise Services, contracts with private contractors to perform the reclamation work. All AML lands are prioritized based on potential threat to the public health and safety. Oklahoma’s abandoned mine land sites are reviewed by the State Reclamation Committee, which includes state and federal agencies and private nonprofit associations.

Blue Thumb Education Program—Blue Thumb is an education program of the Conservation Commission’s Water Quality Division. It works to educate the public about protecting streams through hands on educational experiences, presentations, and water quality monitoring.

Carbon Sequestration Certification Program—The Conservation Commission is designated to verify and certify carbon offsets and avoided emission of greenhouse gases. The program encourages Oklahomans to voluntarily protect water quality; prevent soil erosion and improve soil quality; and improve air quality by adopting conservation practices that sequester or avoid emissions of greenhouse gases.

Conservation Cost-Share Program—The Oklahoma Legislature established the Oklahoma Conservation Cost-Share Program in 1998. The Oklahoma Conservation Commission administers the program at the state level and local conservation districts administer it locally. The program provides funds, as appropriated by the legislature, to conservation districts to be used to install conservation practices on the land to reduce soil erosion and improve water quality.

Conservation Districts—Oklahoma’s eighty-four conservation districts are legal subdivisions of state government organized by local residents. The entire state is divided into conservation districts, often but not always along county lines. Each conservation district office offers a variety of natural resource information including soil surveys. Conservation districts provide services to large segments of the public, including farmers, ranchers, community planners, public health officials, developers, educators, students, and rural and urban citizens. The Conservation Commission’s District Services Division is a liaison to conservation district boards and employees to enhance the capabilities of districts to deliver a variety of services and programs. A directory of conservation district offices, addresses, and telephone numbers is available on the Conservation Commission’s web site at www.conservation.ok.gov.
Conservation Education—The Conservation Education program involves educational assistance to conservation districts, training for teachers, and cooperative projects with other state and federal agencies and higher education entities. The agency is the lead state co-sponsor of the Project WET (Water Education for Teachers) education curriculum, and chairs the Oklahoma Environmental Education Coordinating Committee, which it formed in response to the Oklahoma Environmental Quality Act of 1933, which designated the agency to coordinate environmental education with all other state agencies in an effort to more efficiently serve the public through increased networking among agencies and reduced duplication of effort.

Geographic Information and Technical Services—In 1994 the Oklahoma Conservation Commission was authorized by the legislature to prepare a “Strategy for Developing a GIS for the State of Oklahoma,” creating the State GIS Council to assist with this project. The Conservation Commission serves as the chair of the State GIS Council, which coordinates sharing and integration of GIS information between agencies to improve state functions. The Conservation Commission’s Office of Geographic Information and Technical Services division’s responsibilities include housing the State Office of Geographic Information and the State GIS coordinator as well as maintaining Oklahoma Conservation Commission’s geographic information systems (GIS) operations and database. The division also coordinates computer network for the agency and for conservation districts.

Nonpoint Source Water Quality—The Oklahoma Environmental Quality Act (Laws 1992, c. 398) statutorily designated the Conservation Commission as the state’s nonpoint source technical lead agency in carrying out Section 319 Nonpoint Source Management Programs of the Federal Clean Water Act Amendments of 1987. As such, the agency’s Water Quality Division is responsible for the assessment, prioritization, and management of nonpoint source pollution of the state’s waters required under Section 319. The Water Quality Division monitors small feeder streams on a rotational basis to determine the impact of nonpoint source pollution on the state’s water resources. This rotational monitoring program, supports the state’s ambient monitoring program. The division coordinates the development and management of a performance-based Priority Watershed Cost-Share Program, in which federal and state funds are made available to landowners to install conservation practices to reduce the state’s nonpoint source pollution. The division director chairs the nonpoint Source Working Group, which is made up of federal, state, and local agencies, environmental and producer groups, and Indian tribes. The group identifies priorities where funds and technical assistance will be directed.

Small Watershed Upstream Flood Control Program—The Conservation Commission assists the state’s eighty-four local conservation districts in the construction of new and rehabilitation of aging Small Watershed Upstream Flood Control Program structures (most often dams) as well as operation and maintenance of those structures. Oklahoma has more than 2,100 upstream flood control dams, the most of any state in the nation.

Soil Health Education Program—An education program of the Conservation Commission’s Water Quality Division, this program trains conservation district employees, directors, and the public in the importance of soil health, and its link to water quality, so that they may apply this knowledge on their land and share it with their local communities. The training program delves into soil health principles by teaching easy to use techniques for understanding, assessing, and restoring soil health through hands-on learning opportunities.

Wetlands—In 1990 the Oklahoma Legislature, through O.S. 27 A § 3–2–108 gave jurisdiction to the Oklahoma Conservation Commission to prepare a Wetland Management Strategy for the State of Oklahoma. To guide the effort, the agency developed and chairs the Oklahoma Wetlands Work Group that is comprised of technical representatives from state and federal agencies involved with wetland management, tribal representatives, local governments, non-governmental institutions, and industry representatives. The first wetlands strategy was completed in 1996 and is entitled “Oklahoma’s Comprehensive Wetland Conservation Plan.” The updated version is called the “Wetland Program Plan.” The plan guides the state in providing assistance with wetland related issues for Oklahomans, including promoting private and public cooperation in managing wetlands through a voluntary system using education, technical assistance, and incentives to bring the private and public sectors into wetlands management.

History and Function
The Corporation Commission was established in 1907 by Article 9 of the Oklahoma Constitution. The first legislature gave the commission the authority to regulate what were legally defined as "public service corporations." Initially, the commission regulated transportation and transmission companies; mostly railroad and telephone and telegraph companies. In 1908, pipelines and telephone services were placed under the authority of the commission. In 1913, regulation of heat, light, power, and water were added, and in 1914, oil and natural gas drilling and production became part of the commission's jurisdiction.

The commission presently regulates electric and natural gas utilities, except those under federal or municipal jurisdictions or exempt from regulation; oil and gas drilling, production and environmental protection, including seismicity; aspects of motor carrier, rail and pipeline transportation; most taxis, limousines, for-hire buses, and transportation networks (e.g., Uber); towing companies performing nonconsensual tows; cotton gins; and private water companies. The commission also has the responsibility to ensure proper operation of fuel dispensing units (i.e., gas pumps) at all retail filling stations, and the remediation of groundwater and soil pollution caused by leaking petroleum storage tanks.

There are three corporation commissioners, each elected to a six year term. The seats are statewide. There is a two term limit. The terms are staggered so one commissioner vacancy occurs every two years. The three commissioners decide regulatory matters within the jurisdiction of the commission.

Mission Statement To educate Oklahomans about the importance of petroleum (oil and natural gas) in their lives through traditional and non-traditional school curriculum, advertising, and public relations; to environmentally restore...
abandoned well sites to productive land use; to promote environmentally sound production methods and technologies; and to research and provide educational activities concerning the petroleum exploration and production industry.

**Administration**  Mindy Stitt, Executive Director

**History and Function** Created by the Oklahoma Legislature in 1993, the OERB is a privatized state agency funded through a voluntary one-tenth of one percent assessment on oil and natural gas, also known as the “Oklahoma Oil Check-Off.” The assessment, paid for by oil and natural gas companies and royalty owners, is refundable annually between January 1 and March 31 for any contributor who does not wish to participate in the program.

OERB provides hands-on energy-related curricula for grades K–12. The OERB created “Little Bits” and “Fossils to Fuel” and “Fossils to Fuel 2” for elementary students, “Petro Active and Rockin Ratios” for middle school students, and “Core Energy” for high school students. Other student education programs include “Petroleum Professionals in the Classroom” (Petro Pros), in which industry volunteers give energy presentations in classrooms across the state, and a petroleum scholar program for students pursuing careers in the oil and natural gas industry. The agency produces television and newspaper advertisements, and maintains a public relations campaign to help Oklahomans better understand the petroleum industry. The OERB has restored more than 17,000 abandoned and orphaned oil and natural gas exploration and production sites to productive use since 1994.

Fire Marshal Commission, State

Mission Statement The Office of the Oklahoma State Fire Marshal is a state law enforcement agency charged with the task of preservation of life and property through enforcement of criminal statutes and mandated fire prevention/life safety codes. The agency will be guided by the following principles: a commitment to provide leadership in the fire service through effective communication with the Oklahoma Legislature, public officials, and citizens; a commitment to provide continual public relations and education; a commitment to interact positively with law enforcement, government agencies, and other interested professional entities; and a commitment to the improvement and the financial stability of the Office of the Oklahoma State Fire Marshal in order to provide more efficient service to the citizens of Oklahoma.

Administration Sam Schafnitt, Interim State Fire Marshal

Personnel 13 classified, 3 unclassified, merit

History and Function The State Fire Marshal’s Office was originally established in 1910, but then abolished in 1957. Recognizing the need for a state fire marshal, the Oklahoma fire service voiced concerns and the office was re-established in 1965. Prior to this, fires were investigated by agents with the Oklahoma State Bureau of Investigation (OSBI) and code enforcement/plan review regulations were conducted only in cities having an established code enforcement office. In 1965 the Oklahoma Legislature established the Office of the Oklahoma State Fire Marshal and a five-member commission was appointed to oversee the agency’s operations, including the hiring of the state fire marshal. The agency began its operations with the state fire marshal and only three agents. They were given statewide jurisdiction and responsibility for conducting fire investigations and building inspections. In 1970 the plans review department of the agency was formed. In 2012, by request of the fireworks industry, the fireworks licensing program of the agency was formed, licensing manufacturers, distributors, wholesalers, and outdoor display operators. In 2013 the fire extinguisher licensing program of the agency was formed, licensing companies and individuals conducting business in the fire extinguisher industry. The agency has an annual appropriated
budget of approximately $2.6 million. All field agents are sworn peace officers. Field agents are located throughout the state and office from their homes.

History and Function  In 1908, in accordance with the Oklahoma Constitution, the First Legislature created the Oklahoma Geological Survey. It is now supervised by the University of Oklahoma Board of Regents and charged with the responsibility of collecting and disseminating information about the geology, mineral, energy, and water resources of the state.

The Oklahoma Geological Survey (OGS) studies the state’s geology including hydrocarbon and mineral resources, and makes this information available through publications and workshops. The OGS also examines water resources, non-fuel minerals, coal and coal bed methane resources, earthquakes, natural hazards, and other geological issues concerning the state.

The survey conducts a number of mapping programs in Oklahoma, maintains a web site, and presents programs for teachers, scouting groups, rock hound clubs, and other educational and civic organizations. These research and public service programs are conducted from main offices on the Norman campus of the University of Oklahoma. In addition, the OGS maintains a map and publication sales office at the Oklahoma Petroleum Information Center (OPIC) in Norman (2020 Industrial Boulevard). The OPIC is an important facility for research and maintains an extensive collection of petroleum information. The data includes cores, samples, well logs, scout tickets, completion reports, and related data on petroleum activity in Oklahoma. The data is available for study by researchers and the public during normal business hours.

Grand River Dam Authority (82 O.S. § 861)

Personnel  568 FTE, 73 part-time

History and Function  The Grand River Dam Authority was created by the Fifteenth Oklahoma Legislature in 1935 to serve as a conservation and reclamation district for the waters of the Grand River. The Grand River Dam Authority Act (SB 395) established GRDA as a state agency and authorized it to build dams on the Grand River for the purposes of hydroelectric production, recreation, and flood control. Development of natural resources for Oklahoma were also responsibilities included in the act. The powers and functions of GRDA are exercised by a seven-member board of directors.

GRDA is a member of the Southwest Power Pool (SPP) Regional Transmission Organization and Regional Entity. On March 1, 2014, the SPP launched an Integrated Marketplace. Participation in the SPP market and lower gas prices saved GRDA customers significant money during 2015, and resulted in offsetting reductions in revenues as well as fuel and purchased power expenses.

Facilities  The Pensacola Dam hydroelectric project was completed in 1940. At 5,680 feet in length, it is one of the longest multiple-arch dams in the world. Pensacola Dam creates Grand Lake O’ the Cherokees (Grand Lake) with 46,500 surface acres, a 1,300-mile shoreline, and a 66-mile channel. Six Francis-type hydroelectric turbines at Pensacola Dam’s powerhouse have a total capacity of 112,000 kW. Pensacola Dam impounds 1,672,000 acre-feet of water and has a floodwater storage capacity of 540,000 acre-feet.

In 1964, GRDA completed construction on the Markham Ferry project. Also known as the Robert S. Kerr Dam, the project created Lake Hudson. This 12,000–surface-acre lake has a 200–mile shoreline and contains thirty channel miles of the Grand River in a fairly constant lake level, maintained the year round. Four Kaplan-type hydroelectric turbines at the Kerr Dam powerhouse have a total capacity of 114,000 kW, and an average water year can provide 211,000,000 kWh.

The Salina Pumped Storage Project was planned to be developed in four stages, 130,000 kW each. Two stages have been completed, the first in 1968 and the second in 1971. These two stages combine for a total capacity of 260,000 kW. The project is used for storing energy in the form of water pumped from Lake Hudson to the west. W.R. Holway Reservoir was formed by an earthen dam, which stretches 2,900 feet across the Chimney Rock Hollow southeast of Salina. The Salina Pumped Storage Project also supplies energy during peak loads and supplies emergency power to the system.
In 1976, the Oklahoma Legislature authorized bonds to be issued to construct a 490,000 kW coal-fired power generating unit (GRDA 1). Construction was begun in 1978 and completed in 1981 when the legislature authorized bonds to be issued to construct a second coal-fired generating station (GRDA 2) near Chouteau, adjacent to GRDA 1. The unit is rated at 520,000 kW. Construction began on GRDA 2 in 1981 and was completed in March 1986. Adjacent to Unit 2 is GRDA’s new 490,000 kW combined cycle natural gas plant (GRDA 3), which is expected to be completed in mid-2017. The three facilities comprise the Grand River Energy Center (GREC).

In 2008 GRDA purchased 36 percent interest in the Redbud Gas Plant near Luther, Oklahoma. In recent years, GRDA has added nearly 250,000 kW of renewable wind energy. These moves further diversified the organization’s generation portfolio, adding natural gas to a beneficial mixture that already included hydroelectric and coal fire generation.

In addition to these projects, GRDA operates and maintains an integrated electric transmission system including approximately 2,090 miles of line and related switching stations and transformer substations.

Pursuant to an act of the Oklahoma Legislature, effective July 1, 2016, GRDA assumed the mission of the Oklahoma Scenic Rivers Commission, which is to protect and preserve scenic rivers in their natural and free-flowing state with attention provided to enhancing scenic beauty, water conservation, fish, wildlife, and outdoor recreational values of present and future benefit to citizens of Oklahoma. There are five designated scenic rivers areas: (1) Flint Creek and Illinois River above the confluence of the Barren Fork Creek in Cherokee, Adair, and Delaware counties; (2) Barren Fork Creek in Adair and Cherokee counties from present alignment of US Highway 59 west to the Illinois River; (3) Upper Mountain Fork River above the 600-foot elevation of Broken Bow Reservoir in McCurtain and LeFlore counties; (4) Big Lee Creek above the 420-foot elevation in Sequoyah County; and (5) Little Lee Creek in Adair and Sequoyah counties.

History and Function For more than one hundred years—first as the Territorial Board of Health, then following statehood, as the Oklahoma State Department of Health—the people of Oklahoma have entrusted the Oklahoma State Department of Health to be this state’s prudent steward of public health.

Public health service in Oklahoma was signed into law Christmas Day, 1890, by Governor George Washington Steele, who immediately appointed a superintendent of health. After statehood in 1907, the Oklahoma Legislature created the State Board of Health under a commissioner appointed by the governor. In 1917 the legislature placed control of all public water supplies and sewer systems under the Board of Health.

Today, the Commissioner of Health is appointed by the governor with the advise and consent of the Oklahoma Senate. The commissioner serves at the pleasure of the governor and is the chief administrative officer for the OSDH, who coordinates activities of the agency with the federal government and other agencies, and directs activities of county health departments.

Each county health department has a board of health. Through this system of local health services delivery, the OSDH protects and improves the health status of Oklahoma communities through strategies that focus on preventing disease and promoting health. Seventy counties operate health departments. Of those seventy counties, Oklahoma and Tulsa counties
are served by autonomous city-county health departments, which enforce and administer state department rules and are administratively different.

The State Board of Health is also appointed by the governor with Oklahoma Senate confirmation and has nine members who serve nine-year terms. The board changed to an advisory board in 2019, and advises the commissioner of health and the department on public health issues that affect the state.

Administration  Kim Edd Carter, Director

History and Function  Recognizing the need for coordinated preparedness and security efforts after 9/11, the Oklahoma Legislature passed Senate Joint Resolution 42 in February 2002 and the Office of Interim Oklahoma Homeland Security Director was created. A staff was assembled and the Oklahoma Office of Homeland Security (OKOHS) began focusing on homeland security efforts within the state. The Oklahoma Legislature passed and the governor signed the Oklahoma Homeland Security Act (HB 2280) in May 2004 and OKOHS was established in Oklahoma statute.

The Oklahoma Homeland Security Act of 2004 outlined OKOHS’s strategic objectives which include: 1) prevent a terrorist attack in Oklahoma; 2) reduce Oklahoma’s vulnerability to terrorist attacks; and 3) minimize the damage from and respond to a terrorist attack should one occur. The duties of the office include developing and implementing a comprehensive statewide
Homeland security strategy; planning and implementing a statewide response system; administering the homeland security advisory system; coordinating, applying for and distributing federal homeland security grant funds; and implementing homeland security plans. History and Function   Oklahoma voters created what is now the Department of Human Services in the Great Depression year of 1936. By a two-to-one margin, voters approved a state constitutional amendment "to provide … for the relief and care of needy aged … and other needy persons." Voters also approved a 1 percent sales tax for use by the Welfare Department. The amount was increased to 2 percent by the 1937 Oklahoma Legislature. In the 1950s, the agency's responsibilities were expanded, and, in 1980, its name was changed by the legislature. Today, DHS has offices in each of the seventy-seven counties.

History and Function  Throughout the decades, the Tax Commission has prioritized a flexible organization that encourages keeping pace with changes in technology, government structure and the ever-changing lifestyles of our taxpayers. The commission is responsible for the administration and enforcement of state tax laws, collection of a majority of all state-levied taxes, fees and licenses; and the subsequent apportionment and allocation of revenues earmarked to various state agencies and local units of government. In its quasi-judicial capacity, the commission has the authority to subpoena witnesses and records, to administer oaths and to render decisions appealable directly to the Oklahoma Supreme Court.

Each of the three members of the Commission is appointed, to a six-year term, by the governor and confirmed by the Oklahoma Senate. This gubernatorial appointment process has remained in effect since 1931, with changes established in 1947 by Oklahoma Legislature to stagger the terms. A commissioner appointment comes up every two years. The commissioners are responsible for the supervision of the administration and enforcement of state tax laws and the collection of a majority of all state-levied taxes and fees.

Under the direction of the commissioners, the executive director oversees the general practices of the agency. He is assisted by a team of professionals who staff the administrative offices of the agency, as well as twelve division directors whose staffs encompass the three major arms of the agency’s organizational chart: Customer Service, Revenue Administration and Support Services.

History and Function  The Teacher’s Retirement System provides retirement benefits to Oklahoma’s public educators and support staff. Following voter approval of a constitutional amendment, the system was established by legislative act and became effective July 1, 1943. Active members contribute 7 percent of their gross salary per school year. The state provides a percentage of certain taxes and other revenue directly to the system. For instance, the system receives 5.0 percent of the state’s sales and income taxes and 5.0 percent of the state lottery income. In addition, the system receives contributions from public education employers. The board of trustees has responsibility for the general operations of the Teachers’ Retirement System. The board is composed of fifteen members: six appointed by the governor, and four appointed by the legislature, four ex-officio members, and one non-voting member appointed by a statewide retiree organization. Eight of the fifteen members are plan participants. Five members are from the business community, and two are statewide public officers who serve ex-officio.

In 1972 the legislature created the Oklahoma Tourism and Recreation Department, now made up of four divisions.

The Division of State Parks operates the Oklahoma State Parks System, providing a myriad of affordable outdoor recreational and vacation opportunities to millions of visitors every year.

History and Function Created by the Oklahoma Legislature in 1976 as an overall coordinating agency for the state’s highways, railways, and waterways, this agency superseded the original Oklahoma State Department of Highways, implemented by legislation in 1911. The Oklahoma Aeronautics Commission and Rail Planning were also placed under ODOT jurisdiction. The Waterways Branch was transferred from the Commerce Department to ODOT in 1993. The Oklahoma Aeronautics Commission became a separate agency as of July 1, 2002. The department is primarily funded by motor vehicle fuel taxes, legislative appropriations, and a return of federal matching dollars from the Federal Highway Trust Fund. ODOT’s annual budget, totaling more than $1.5 billion in federal and state funds, is applied to highway construction and maintenance activities, railways, waterways, public rural transit programs and administration statewide. While the primary business is construction and maintenance of the state’s highways, the agency also promotes intermodal transportation. An eight-member Transportation Commission appointed by the governor and confirmed by the Oklahoma Senate sets departmental policy and oversees general operations. The members represent eight geographic districts corresponding with ODOT’s eight field divisions. The commission meets on the first Monday of each month in the R.A. Ward Transportation Building in Oklahoma City.

ODOT Waterways Branch  
4002 N Mingo Valley Expressway, Tulsa 74116–5002

The board consists of seven members to advise the Oklahoma Department of Transportation (ODOT), and ODOT Waterways Branch on matters relating to the promotion and viability of Oklahoma’s commercially-navigable waterway, the McClellan-Kerr Arkansas River Navigation System (MKARNS). Members are appointed by the director of the Oklahoma Department of Transportation and shall consist of the two executive directors of Oklahoma’s two active public ports, commonly known as the Tulsa Port of Catoosa and the Port of Muskogee; two members from private port operations with existing waterfront facilities which regularly employ the use of barge transportation; one member from the public at-large who has professional experience and expertise in shipping, freight logistics or construction, operation, maintenance and rehabilitation of transportation systems; and two members appointed at-large from business and/or industry associated with inland navigation.

The board shall serve in an advisory capacity to ODOT, the governor’s office and the Oklahoma Legislature in accomplishing its mission, assist in the development of rules, standards, policies, procedures, and directions of the ODOT Waterways Branch, and recommend specific public and private actions that would enable this state to utilize its waterways to promote future growth. The Waterways Branch works with local, state, and federal agencies to promote a better understanding of the state’s navigable waterway and works to ensure adequate funding is appropriated to the Corps of Engineers for the operation and maintenance of the system. The Corps of Engineers has the role of operating and maintaining the MKARNS and to maintain a 9-foot channel depth. The U.S. Coast Guard is responsible for the safety, security, and regulations on the MKARNS, including setting the markers and tendering buoys on the navigation channel.

The 445-mile long MKARNS is an international water route to the Mississippi River and seaports of the world. It has been designated the M–40 Marine Corridor. The high-use system serves a twelve-state region, and forty-two countries have traded commerce with the Arkansas River Basin region via the MKARNS. Completed in 1970 at a cost of $1.3 billion, the system has eighteen locks and dams (five in Oklahoma) with an elevation differential of 420 feet from mile 600 on the Mississippi River to the head of navigation at the Tulsa Port of Catoosa. The 2,500-acre Tulsa Port of Catoosa is one of the largest, most inland, ice-free ports in the nation, with over seventy industries and more than 4,000 employees. Oklahoma’s 2018 estimated waterborne commerce totaled over 5.5 million tons worth over $2.1 billion. The tonnage is equivalent to the carrying capacity of 54,988 railcars, or 219,952 semi-trucks respectively. An estimated 10.9 million tons valued around $3.5 billion were shipped on the entire MKARNS in 2018. Commodities with the most tonnage were chemical fertilizer, iron and steel, soybeans, wheats and other grains, sand, gravel and rock. More than 2,000 semi-trucks per day travel into and out of Oklahoma’s port and terminal facilities to load and off-load commodities to and from barges.
