The Wacky Water Show

The Oceans cover more than three fourths of the earth's surface and moves through a continual cycle from the land, to the atmosphere, to bodies of water in a never ending motion of life sustenance. The very same water that existed in the ancient times is still present today! Join Mad Science of Central Oklahoma this summer as we discover and learn interesting properties about water and how it touches our everyday lives.

“Wacky Water Show” – No substance is more important to life than water. Join us as we share with you some eye popping, jaw dropping actions that show the perplexing properties of water. This is sure to make you appreciate and enjoy water like never before. Get splashed with a water show under pressure. Change water to juice to milk, enjoy some science magic with water optical illusion. Let the water fun begin!

Paper Magic Tricks

Paper Magic Tricks is a collection of amazing magic tricks that you can learn, make, and perform with nothing more than printed paper, scissors, and glue. It's perfect for amateur magicians as well as people who likes to learn new skills that are fun to share. Paper Magic is recommended for ages 8 and up. These tricks aren't just for kids, though. Adults will also be creatively challenged and find the principles fascinating. Paper Magic consists of ten lessons in magic that families can learn and perform at their own pace. Each lesson includes three videos: the performance, set-up and construction, and the secret.

Recommended for ages 8+

Subscription Fee & Platform(s) \$500 for one month of unlimited access/downloads. Plus -you can KEEP the PDF files to print whenever you need a new copy!

Other Information: My career started from a book on magic that I found on the shelf at my grandparent's house when I was twelve years old. When I began performing public shows, my first summer reading performances were for the Lacey, Tumwater, and Olympia Timberland Libraries in 1992. They have had me back as part of their programs nearly each year since then! Frequently I create a new show to fit the CSLP theme. I always let kids know that my career began from a book and encourage them to unlock the fun and thrill of reading. Many references available upon request. Read some of their reviews here. You can also see what I've been up to lately on Facebook, Youtube, Twitter, and Instagram @jeffevansmagic. I've been having a blast performing Zoom shows from my home video studio. Magic works surprisingly well virtually! Thanks for considering me for your 2022 Summer Reading Program.

Interactive Storytelling! Josiah Quinn Jackson (a.k.a "Skippy") fascinates children with his high energy and creative interactive stories, and "interactive" isn't just for in-person shows but for virtual ones, too. He gives children an opportunity to interact and join in the process as he dramatically and creatively builds stories with them. He is a master physical comedian, too, so the children will laugh all the way through the show! Each year's theme shapes his stories

Buffalo Tales

Oklahoma saved the buffalo from the brink of extinction. Fifteen buffalo boarded a train in New York City and traveled 1800 miles to Oklahoma Territory in October 1907. Children's author Desiree Webber tells the story along with hands-on artifacts such as a buffalo robe, skull, bones, handmade moccasin, bladder and more. Power point presentation shows historical photos of the train's arrival, along with nature photos.
